Accessing the Deployed Application

The Meal Planner App for the Elderly is deployed as a web-based application and does not require any installation.

can access the live deployed version of the system using the following link:

https://meal-planner-for-elderly.vercel.app/

The application is hosted on Vercel and is publicly accessible.

System Requirements

No installation is required. The application runs directly in a web browser.

Recommended requirements:

- A modern web browser (Google Chrome, Microsoft Edge, Firefox, or Safari)
- Internet connection
- Desktop, laptop, tablet, or mobile device

The application is responsive and supports both desktop and mobile screen sizes.

How to Use the Application

1. Open the deployed link in a web browser.
2. Create account and then verify with your email then login with same email.
3. Navigate to the Profile section to create or update a user profile.
4. Save the profile information.
5. Navigate to the Meal Plan section to generate and select weekly meals.
6. The profile data is stored in DB for persistence during use.

DECLARATION

*I declare that all material in this submission, e.g. thesis/essay/project/assignment, is entirely my/our own work except where duly acknowledged.

*I have cited the sources of all quotations, paraphrases, summaries of information, tables, diagrams or other material, including software and other electronic media in which intellectual property rights may reside.

***I have cited clearly, exhaustively and adequately in my source code, code generated by Gen AI tools.**

*I understand that I can only get credit for work that I have done (e.g. understanding other code, interfacing my code with it, modifying it, etc.), but you will not be credited with the third party code itself.

*I have provided a complete bibliography of all works and sources used in the preparation of this submission.

*I understand that failure to comply with the Institute's regulations governing plagiarism constitutes a serious offence.
